

## **ITOP 2-2-612(1)**

### ***TRACKED VEHICLE FORDING***

#### **SCOPE**

This document describes procedures for evaluating the fording ability of military tracked vehicles as well as the effectiveness of fording kits. Fording capability for tactical vehicles is critical to movement of military units across rivers, streams, and other small bodies of water when bridges and bridging devices are not available. The types of fording covered in this document are shallow-water, deep-water, and underwater fording.
