

## **ITOP 5-2-505**

### ***WEAPON DANGER AREA AND RISK ASSESSMENT***

#### **SCOPE**

This ITOP provides the general criteria for establishing a defined Weapon Danger Area and Risk Assessment for the conduct of guided or unguided weapon system firings against ground or airborne targets. This document specifies planning, data, and analysis needed to assure the evaluation of the test scenarios, debris, and hazards and risk to personnel and property. The requirements, procedures, and analysis described in this procedure shall be used to ensure that the defined Weapon Danger area and probability of risk for the conduct of a test is deemed acceptable.
