# APPROVED BY RMSS SECRETARIAT (CLASS 2 CHANGES)	CLASS 2 CHANGES
Name:	Class 2 changes are routine changes, more of a cosmetic nature eg. SADF to SANDF. This will also typically include the correction of spelling errors, page number errors, format changes and any non-technical changes which will fall outside the scope of Class 1 changes. Class 2 changes will not be that urgent but can be done in a relative short time period and will not affect the functional application of the document.
