LIFE CYCLE COST MANAGEMENT OF COMPLEX SYSTEMS, PRACTISE FOR

SCOPE

This document deals with the management of Life Cycle Cost (WC), as an integral part of the management of acquisition and upgrading programmes of the RSA'S defence industry.

The presentation of life cycle cost management principles and processes are given, which can be used by project officers, weapon system managers, programme managers, systems houses, contractors and revision boards in tailoring, applying and evaluating life cycle cost management on specific programmed.

Basic theory of LCC, background information to life cycle costing and life cycle cost management concepts, as well as other information in support of the LCC management process are included in appendixes to this document.
