## ***ENVIRONMENTAL CONTROLLED PRESERVATION SYSTEMS (DOD), PROCEDURE FOR THE PREPARATION AND HANDLING OF VEHICLES FOR STORAGE IN***

### **SCOPE**

#### **1. Purpose**

The purpose of this document is to describe all the activities that must be carried out on vehicles to be stored in environmental controlled preservation systems.

This document must be used as a guideline by the Department of Defence (DOD) in the preparation, maintenance and re-commissioning of vehicles to be stored in environmental controlled preservation systems i.e. preservation bags or cladded buildings.

#### **2. Applicability**

This document establishes the procedures for the preparation, maintenance and re-commissioning of (DOD) vehicles to be preserved in environmental controlled preservation systems.

This military procedure also provides Armscor and the (DOD) with reference material that will enhance standardisation on the handling of vehicles to be stored in environmental controlled preservation systems.

#### **3. Document Overview**

This procedure is divided into five sections. The aspects covered areas follows:

Section 1 : The scope of the procedure.

Section 2 : Referenced documents.

Section 3 : Definitions and abbreviations.

Section 4 : Responsibilities of tasks for the storage of vehicles in environmental controlled preservation systems.

Section 5 : Procedures for the storage of vehicles in environmental controlled preservation systems.
