

## **RSA-MIL-SPEC-17**

### ***MANUALS, TECHNICAL: OPERATORS PREPARATION OF***

#### **SCOPE**

1. This specification contains the detail requirements for the preparation of operator/crew (See paragraph 6.3) technical manuals for all equipment except Aircraft, Automatic Test Equipment, Conventional and Chemical Ammunition, Munitions Equipment.

#### **NOTE**

Because of the varied usage and wide variety of items to which this specification could be applied, the inclusion or exclusion of certain data (paragraphs) in the operator manual may vary in importance from "NOT APPLICABLE" to "LIFE ENDANGERING". ENSURE THAT A PROPER ANALYSIS OF THE EQUIPMENTS PROPOSED USAGE HAS BEEN DONE PRIOR TO DETERMINING INFORMATION REQUIREMENTS.

2. Generally, each item specified herein shall be included in the technical manual unless the item is not applicable to the particular equipment or a deviation/waiver has been granted by the procuring authority. Applicable pages, chapters, and sections shall be numbered in sequence. Additional information and instructions deemed necessary for a specific item of equipment, but not specified herein, shall be included in the technical manuals for that item of equipment, if authorized by the procuring authority.
