

RSA-MIL-SPEC-47

ITEM INFORMATION REQUIREMENTS FOR CODIFICATION: RSA MILITARY SPECIFICATION FOR

SCOPE

1. This specification covers the detail requirements for the acquisition of technical and supply management data from a manufacturer, contractor, sub-contractor, vendor or supplier for the item identification of items, for codification.
2. Generally the technical data requirements specified here-in, shall be supplied unless the data is not applicable to the particular item, or a deviation or waiver has been granted by the procuring authority. Additional technical information deemed necessary for a specific item but not specified herein, shall be included for that item when necessary or when authorized by the procuring authority.
