

## **RSA-MIL-SPEC-64**

### ***MANUALS, TECHNICAL: QUALITY ASSURANCE PROGRAMME, REQUIREMENTS FOR***

#### **SCOPE**

##### **1. Requirements**

This specification establishes technical manual quality assurance (TMQA) requirements necessary to ensure the adequacy of the technical manual content through a selected contractor and a procuring authority programme or project.

##### **2. Procedures**

Procedures are established for the development and implementation of a contractor programme encompassing the conduct of technical manual quality assurance programme reviews, quality reviews, in-process reviews, adequacy reviews, validation and verification requirements.

##### **3. Applicability**

This specification applies to all technical manual acquisition and procurement.
