

RSA-MIL-STD-122-4

PRINTING AND BINDING OF USER SYSTEM DOCUMENTATION: REQUIREMENTS FOR (SA ARMY)

SCOPE

1. Purpose

The purpose of this standard is to establish a uniform practice for the development of integrated user system documentation for the SA Army.

This standard describes general printing and binding standards applicable to user system publications. Printing and binding requirements applicable to specific types of publications are described in RSA-MIL-STD-122-2: Standard Information Parts; User System Documentation; Requirements for (SA Army).

2. Application

This standard shall form the baseline for the development of user system documentation for the SA Army and may be used by the following parties:

- a. suppliers involved with the acquisition of products.
- b. the acquisitioner involved with the acquisition of a product system.
- c. the user (SA Army) involved with the operation and logistic support of a user system.
