

RSA-MIL-TOP-256

THE EVALUATION AND ACCEPTANCE OF ANY INTEGRATED ENVIRONMENTAL CONTROL UNIT FOR USE ON ANY MILITARY VEHICLE: TEST AND OPERATION

SCOPE

1. Environmental control unit sub system acceptance evaluation The object of this acceptance evaluation is to ensure that any military environmental control unit be tested at sub system level under specified controlled conditions.
2. Environmental control unit integration acceptance evaluation. The object of this acceptance evaluation is to ensure that the same level of performance will be achieved, once the unit has been integrated, as what was achieved under specified controlled conditions.
3. Environmental control unit vehicle endurance acceptance evaluation.

The object of this acceptance evaluation is to ensure that reliability, maintainability and customer satisfaction is achieved.
